### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Johnson on February 3 2011.

The application has been amended as follows:

Please cancel claims 25-27.

### **Examiner's Statement of Reasons of Allowance**

The following is an examiner's statement of reasons for allowance: The instant claims require a polymeric structure wherein polyethylene glycol (PEG) polymers are linked with hydrolytically degradable linkages in the polymeric backbone wherein the polymer is crosslinked and the structure is hydrolytically degradable into smaller PEG fragments. The previously cited prior art does not teach the PEG polymers and hydrolytically unstable linkages in the backbone of the polymers. Therefore, the instantly claimed structure is deemed novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
